LangSmith interface showing a list of runs for the 'rag-agent-demo' project. The table lists runs with columns for Name, Input, Output, Error, Start Time, Latency, and Dataset. A sidebar on the right shows statistics like Run Count (33), Total Tokens (0 / \$0.00), Error Rate (24%), and Latency (P50: 0.81s, P99: 2.07s).
